This document summarizes the Development Charges according to by-law 6639-2024.

This document is intended as a guide.

Refer to the approved by-law and consult with County or municipal staff to determine charges that apply to specific development proposals. The by-law is available in full at Customer Service in the Oxford County Administration Building during regular business hours (weekdays from 8:00 a.m. to 4:30 p.m.). It is also available on the County website at: [Oxford County Development Charges](#).

In addition to the County Development Charges, all area municipalities in Oxford County also have Development Charges by-laws. Refer to the Building Department of the area municipality or follow the website link above to the summary tables for information regarding the municipal Development Charges.

## PURPOSE OF DEVELOPMENT CHARGES

Development Charges are used to finance capital works required for new housing and non-residential development. The county-wide charges apply to most new residential and some forms of non-residential development on lands within the boundaries of Oxford County. Development Charges applied county-wide go toward growth-related costs associated with services related to a highway, waste diversion, ambulance, long-term care and library services. The water and wastewater charges apply specifically to development of lands within a geographic area defined in schedules to the by-law that generally corresponds to the service area named in the title. Development Charges generated from these areas go toward growth-related costs associated with the provision of water and wastewater infrastructure. The County Development Charge by-law was passed under the authority of the Development Charges Act, (1997) on June 12, 2024.

## SCHEDULE OF CHARGES

The County schedule of Development Charges is summarized in the tables below and on the following page. For area municipal charges, please refer to the appropriate municipal by-law. The schedule sets out the charges that are applicable to residential development by unit type: single and semi-detached dwelling units; apartments; and other multiples. Charges applicable to non-residential development are levied per square meter of gross floor area, per bed for farm bunk houses and per wind turbine. To determine the total County charge, add the county-wide charges to the applicable area-specific charges for water and wastewater. For areas not serviced by municipal water and wastewater services, only the county-wide charge applies. The County Development Charges will be indexed on June 13 of each year in accordance with the annual change in the Statistics Canada Construction Price Index.
